TRƯƠNG ÁI NGA

Fullstack Web Developer

+84 376 600 545 ainga01012004@gmail.com https://ainga2k4.vercel.app/ https://github.com/AiNga04

Summary

Fullstack Developer with a background in Information Security and hands-on experience in building web applications using React.js, Next.js, TypeScript, Java, and Spring Boot. Experienced in developing responsive user interfaces, integrating RESTful APIs, implementing authentication and role-based authorization, and working with PostgreSQL and Redis. Completed a Web Developer internship at FPT Software and developed fullstack projects involving e-commerce, rental workflows, and secure API communication. Seeking a Fullstack Developer opportunity to build scalable, secure, and user-friendly web applications.

Education

Ho Chi Minh City University of Technology and Education **2022 – 2026 (Expected)**

Major: Information Security GPA: 3.34/4.0

Skills

Front-end: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3/SCSS, Tailwind CSS, Responsive UI.
State Management & API Integration: TanStack Query, Zustand, Axios, RESTful API, JWT authentication handling.
Back-end: Java, Spring Boot, Spring Security, Node.js, NestJS, RESTful API, JWT, RBAC.
Database & storage: PostgreSQL, MySQL, Redis, MinIO.
Payment & Security Integration: VNPay API, FPT AI eKYC, E2EE concepts.
Tools & Workflow: Git, Docker, Linux, CI/CD, Postman, Agile/Scrum.

Experience

FPT Software Tp.Hồ Chí Minh **Jun 2025 - Sep 2025**

Web Developer (Internship)

- Developed backend features using Java and Spring Boot in a microservices-oriented environment.
- Implemented authentication and role-based authorization using Keycloak and RBAC.
- Worked with PostgreSQL and Docker during application development.
- Collaborated with team members in an Agile/Scrum environment to implement and maintain web application features.

Projects

Digital Rental - Secure Camera Rental Platform **Feb 5, 2026 - Present**

Fullstack Developer | Graduation Thesis

Technologies: Next.js, React, TypeScript, Tailwind CSS, Java, Spring Boot, PostgreSQL, Redis, MinIO, VNPay, FPT AI eKYC.

- Developed responsive customer and admin interfaces for product browsing, checkout, rental tracking, and management dashboards.
- Built backend APIs for equipment availability, rental orders, deposits, device serial management, and overdue/damage fee calculation.
- Implemented authentication and role-based access control for customer, staff, admin, and super admin roles.
- Integrated VNPay payment processing, FPT AI eKYC, and MinIO file storage.
- Integrated an E2EE SDK to protect sensitive API payloads using ECDH, HKDF-SHA256, and AES-256-GCM.

Zyna E-Commerce Frontend **Nov 25, 2025 - Mar 22, 2026**

Frontend Developer | Personal Project

Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS, TanStack Query, Zustand, Axios, Framer Motion.

- Developed responsive customer and admin interfaces for product browsing, shopping cart, checkout, and order tracking.
- Built role-based dashboards for admin, staff, shipper, and customer roles.
- Implemented product management, cart management, checkout, order tracking, and user profile features.
- Integrated backend RESTful APIs using Axios and TanStack Query for efficient data fetching and caching.
- Utilized Next.js App Router, Server-Side Rendering (SSR), and Zustand for optimized performance and state management.

Zyna E-Commerce Backend **Oct 28, 2025 - Mar 22, 2026**

Backend Developer | Personal Project

Technologies: Java 17, Spring Boot 3, Spring Security, PostgreSQL, Redis, JWT, Docker, VNPay API.

- Developed RESTful APIs for a fashion e-commerce platform using Spring Boot with layered architecture.
- Implemented JWT authentication and role-based access control (RBAC) using Spring Security.
- Built backend modules for product management, orders, inventory, vouchers, and shipping workflows.
- Integrated VNPay payment processing for secure online transactions.
- Implemented Redis caching to improve application performance and optimize data retrieval.

Other Projects

Fullstack & UI-focused projects: https://github.com/AiNga04?tab=repositories

- Movie Streaming Website - Responsive movie browsing UI with filtering features.
- Tech: HTML, SCSS, Bootstrap, JavaScript.
- Online Course Marketplace Website - Course listing interface with responsive Bootstrap layout and filtering sections.
- Wanderlust Travel Website - Travel landing page with destination sections and Tailwind CSS styling.

Professional Training & Honors

Professional Training

- Java Web Full-Stack Development – VTI Academy (84 training sessions, started May 2026)

Scholarships & Honors

- Power On Scholarship Recipient – Academic Years 2022–2023, 2023–2024, 2024–2025, 2025–2026
- Zhi Shan Foundation Scholarship Recipient (2018–2026)
- Pham Van Dong Scholarship Recipient – Academic Years 2024–2025, 2025–2026
- Tiep Suc Den Truong Scholarship – Tuoi Tre Newspaper (2022)
- Dong Hanh Scholarship Recipient – 44th Award Round (2022)
