Career Objective

As a Fullstack Developer, I aspire to participate in unique web projects with intuitive, user-friendly interfaces while also building robust and scalable backend systems. My long-term goal is to deepen my expertise across the full development stack and further advance into a DevOps Engineer role, where I can contribute to efficient deployment, system reliability, and overall product performance.

Education

HO CHI MINH CITY UNIVERSITY OF TECHNOLOGY AND EDUCATION 2022 - 2026

Major: *Information Security*

Final year students

Skills

Front-end	HTML, CSS(SCSS), Javascript, Typescript, Bootstrap 5, React JS, NextJS, Antd, MUI, Tailwind CSS, shadcn/ui,
Back-end	Java, Spring boot , Node JS, Nest JS,
Other Skills	Git, Docker, RESTful API, Figma, Agile/Scrum/Teamwork, Problem-Solving / Research

Work Experience

FPT Software Tp.Hồ Chí Minh Jun 2025 - Sep 2025

Web Developer (Internship)

- Learned and applied Java Spring Boot for backend development.
- Implemented secure authentication and authorization using Keycloak and RBAC.
- Gained hands-on experience with Microservices architecture and system integration.

http://viec24h.vn/ Jun 2025 - Aug 2025

Frontend Developer (Freelance)

- Developed and maintained complex dashboard interfaces using React and Next.js.
- Optimized frontend performance and ensured responsive design across all devices.
- Collaborated with clients to deliver user-centric features and intuitive UX.

Featured ProjectsS

ZYNA E-COMMERCE FRONTEND

Nov 25, 2025 - Present

GitHub: https://github.com/AiNga04/Fe-Ecommerce

- Team Size: 1 (self-learning individual project)
- Technologies: Next.js 16, React 19, TypeScript, Tailwind CSS, TanStack Query, Zustand, Axios, Framer Motion
- Description:
  - Built a modern fashion e-commerce frontend using Next.js App Router with responsive UI and SSR optimization.
  - Implemented role-based dashboards for Admin, Staff, Shipper, and Customers.
  - Developed modules for product browsing, cart management, checkout, order tracking, and profile management.
  - Integrated backend REST APIs with Axios, React Query caching, and JWT authentication handling.

ZYNA E-COMMERCE BACKEND

Oct 28, 2025 - Present

GitHub: https://github.com/AiNga04/Be-Ecommerce

- Team Size: 1 (self-learning individual project)
- Technologies: Java 17, Spring Boot 3, PostgreSQL, Redis, JWT, Docker, VNPAY API
- Description:
  - Built a RESTful backend system for a fashion e-commerce platform using Spring Boot with layered architecture.
  - Implemented JWT authentication and RBAC authorization with Spring Security.
  - Developed modules for products, orders, inventory, vouchers, and shipping workflows.
  - Integrated VNPay payment gateway and Redis caching for performance and security.

SDK E2EE_SHIELD

Sep 2, 2025 - Nov 26, 2025

https://github.com/AiNga04/E2EE_SHIELD

- Team Size: 2 (graduation project)
- Technologies: Next.js, TypeScript, Spring Boot, ECDH, HKDF, AES-GCM, JWT, REST API
- Description:
  - Built a secure API communication layer implementing end-to-end encryption for web applications.
  - Implemented ECDH key exchange and HKDF-based key derivation to generate AES-256-GCM session encryption keys.
  - Developed a TypeScript SDK to encrypt/decrypt API requests automatically via Axios interceptors.
  - Demonstrated secure communication between Next.js frontend and Spring Boot backend services.

MOVIE STREAMING WEBSITE

Dec 25, 2024 - Feb 25, 2025

GitHub: https://github.com/AiNga04/movie-zone

- Team Size: 1 (self-learning individual project)
- Technologies: HTML, CSS (SCSS), Bootstrap, JavaScript
- Description: Eye-catching interface, data filtering, responsive layout.

ONLINE COURSE MARKETPLACE WEBSITE

Dec 10, 2024 - Dec 24, 2024

GitHub: https://github.com/AiNga04/course

- Team Size: 1 (self-learning individual project)
- Technologies: HTML, CSS (SCSS), Bootstrap, JavaScript
- Description: Visually appealing interface, smart course filtering.

WANDERLUST – TRAVEL & EXPLORE WEBSITE

May 11, 2025 - May 13, 2025

GitHub: https://github.com/AiNga04/tailwind

- Team Size: 1 (self-learning individual project)
- Technologies: HTML5, TailwindCSS, JavaScript, Ionicons
- Description: Eye-catching interface, responsive layout.

OTHER PROJECTS

-

Fullstack & UI-focused projects:

- https://github.com/AiNga04?tab=repositories

Interests

- Exploring new frameworks and development tools; designing user-centric interfaces.
- Taking walks after long hours of work to relax and refresh the mind.
